

## ANNOUNCEMENT

Reference made to continuous and repetitions of same claims of non-selected candidates for the program of Israel Agriculture internship, the Ministry of Agriculture and Animal Resources (MINAGRI) would remind the criterias of recruitment and placement of interns in above mentioned program:

- MINAGRI recruit interns, and the selection targets mainly the candidates with highest score in exam,
- The number of interns to be selected is based on field of study, gender, and the capacity of mentorship of our partners (Hosting institutions).
- The number of interns by gender to be hosted is determined by the capacity of the hosting institution,
- In case of equalization of many candidates on basic marks in exam, we compare academic transcripts of candidates who equalized, with same gender, same field of study and retain the candidates with higher score than others.

It is regarding this background that some candidates are selected and others are not.

**Done at Kigali on the 20<sup>th</sup> November, 2020**

**MUSABYIMANA Jean Claude**  
**The Permanent Secretary**

A blue ink handwritten signature of Jean Claude Musabyimana, written over a blue circular official stamp.
